We have reviewed the accompanying interim condensed consolidated financial statements of United Gulf Bank B.S.C. (c) (the "Bank") and its subsidiaries (together, the "Group") as at 30 June 2023, comprising of the interim consolidated statement of financial position as at 30 June 2023 and the related interim consolidated statements of income and comprehensive income for the three month and six month periods then ended, and the interim consolidated statements of cash flows and changes in equity for the six month period then ended and explanatory notes. The Board of Directors of the Bank is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 - Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

*Scope of Review*

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

*Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES**

**2.1 Basis of preparation**

The interim condensed consolidated financial statements for the six-month period ended 30 June 2023 have been prepared in accordance with IAS 34 - Interim Financial Reporting. The Group has prepared the interim condensed consolidated financial statements on the basis that it will continue to operate as a going concern. The Board of Directors consider that there are no material uncertainties that may cast significant doubt over this assumption. They have formed a judgement that there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future, and not less than 12 months from the end of the reporting period.

Certain corresponding figures have been reclassified in order to conform to the presentation of the consolidated financial statements for the current period. Such reclassifications did not affect previously reported net profit, total assets, total liabilities and total equity of the Group.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2022.

These interim condensed consolidated financial statements are reviewed, not audited.

**2.2 Significant accounting policies**

The accounting policies adopted in the preparation of these interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended 31 December 2022, except for the adoption of new and amended standards and interpretations effective as of 1 January 2023 as stated in note 2.3. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

---

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL  
STATEMENTS

As at 30 June 2023 (Reviewed)

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.3 New standards, interpretations and amendments adopted by the Group**

The adoption of below new and amended standards and interpretations had no impact on the interim condensed consolidated financial statements of the Group:

**2.3.1 IFRS 17 Insurance Contracts**

In May 2017, the IASB issued IFRS 17 Insurance Contracts, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. IFRS 17 replaces IFRS 4 Insurance Contracts that was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. IFRS 17 is based on a general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

**2.3.2 Definition of Accounting Estimates - Amendments to IAS 8**

The amendments to IAS 8 clarify the distinction between changes in accounting estimates, and changes in accounting policies and the correction of errors. They also clarify how entities use measurement techniques and inputs to develop accounting estimates.

**2.3.3 Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2**

The amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

**2.3.4 Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12**

The amendments to IAS 12 Income Tax narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities.

\* The Group uses foreign currency denominated borrowings and forward currency contracts to manage some of its transaction exposures. These currency forward contracts are not designated as cash flow, fair value or net investment in foreign operations hedges and are entered into for periods consistent with currency transaction exposures.

Forward foreign exchange contracts are contractual agreements to either buy or sell a specified currency, at a specific price and date in the future, and are customised contracts transacted in the over-the-counter market.

Swaps are contractual agreements between two parties to exchange interest or foreign currency differentials based on a specific notional amount. For interest rate swaps, counterparties generally exchange fixed and floating rate interest payments based on a notional value in a single currency.

**14 FAIR VALUE MEASUREMENT*****Fair value hierarchy***

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair values of quoted securities are derived from quoted market prices in active markets, if available. For unquoted securities, fair value is estimated using appropriate valuation techniques. Such techniques may include using recent market transactions; reference to the current fair value of another instrument that is substantially the same; discounted cash flow analysis or other valuation models.

The fair values of the funds that are listed on active markets are determined by reference to their quoted bid prices. The fair values of unlisted funds are based on net asset values which are determined by the fund manager using the quoted market prices of the underlying assets, if available, or other acceptable methods such as a recent price paid by another investor or the market value of a comparable company.

For assets and liabilities that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

There were no changes in the Group's valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the period.

The Group uses the following hierarchy for determining and disclosing the fair value of the Group's assets and liabilities by valuation technique:

**Level 1:** quoted (unadjusted) prices in active markets for identical assets or liabilities;

**Level 2:** other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

**Level 3:** techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.
